

Our Vision & core values...

At Blaenhonddan, we ensure our learners develop knowledge, skills, and a positive attitude to learning. We aim to motivate learners through engaging and exciting experiences, which enable them to be strong communicators, good readers, effective writers, and capable mathematicians. We share clear aspirations for every child and set high expectations that support them to aspire, believe, and succeed.

To achieve this, we are committed to providing authentic learning experiences that help our learners to understand the world around them and how to make a positive impact. We will encourage learners to accept and take responsibility for themselves and their actions, preparing them for life beyond school. We shall provide opportunities for children to develop confidence, resilience, and independence to keep going when things are tricky.

We want and expect our children to be kind, respectful and to be able to form positive relationships with themselves and others. We expect everyone to feel safe, happy and cared for, and to grow their ability to understand and manage their emotions.

Wellbeing and connection will be at the centre of everything we do, and we expect our learners to leave Blaenhonddan – capable, caring, and ready for whatever comes next.

Belonging

Respect

Kindness
